

Eurocopter EC-120 Cabin Heater & Windshield Defogger

Developed by Air Comm Corporation

Eurocopter EC-120 Cabin Heater & Windshield Defogger

ACC produces the most effective heater system available for the EC-120. Our advanced heater system design provides comprehensive aircraft heating and windshield defogging, even in extreme conditions.

SPECIAL FEATURES

- Air outlets located at floor level (overhead outlets on competitors' systems result in cold feet and eye discomfort)
- Low noise level
- Exceptional output
- Lightweight, maintenance-free mini-ejector system. No ducting or blowers
- Warm air directly on windshield for effective defogging
- Automatic bleed air line drain valve releases wash solution and condensate overboard
- Easy installation – can install/retrofit ACC heater during regular maintenance. No lost time.

ACC Is Your Best Choice. Here's Why We're America's Leader.

ACC products and technical support set the industry standard; our leading edge design, operating efficiency and factory service optimize system performance with minimal maintenance.

- Proven performance worldwide
- Comprehensive, user-friendly installation drawings
- ACC installation technicians available for training & support worldwide
- Outstanding product support
- Lighter weight

ACC Heater Technology Leads the Industry
