## VAPOR CYCLE AIR CONDITIONER High Performance Cooling System

ACC's capabilities include design, manufacture and support for civil and military rotorcraft and fixed-wing air management systems, development of custom air management solutions for avionics and electronics cooling systems, fluid systems, pneumatic and electric environmental controls, blowers, valves and ducts. ACC also specializes in electro/mechanical air management system and component design, development, certification and FAA program management. The company is ISO9000/AS-9100 certified.

### Capabilities

- Electric bypass valve eliminates compressor cycling
- Leak-proof Torq-Lok refrigerant fittings with lightweight aluminum plumbing
- Fresh air ventilation
- Low noise level
- Eliminates water/mist leakage and high maintenance costs associated with bleed air ECUs
- Performance proven in world's harshest conditions
